Buys the Brikrete for this Home

Same low price per square foot for any other home you have in mind. Also, any commercial or industrial building.

This is lower than lumber—quite a lot lower.

Yet Brikrete is the world's finest masonry. The only material that truly combines beauty, strength, safety, comfort, long life and low cost. World's most modern masonry.

Self-contained insulation and water-resistant properties.

Visit our plant or write for literature and prices.

We wish to take this opportunity to thank the residents of Baraboo & West Baraboo and especially the merchants, for their splendid cooperation in making this City Directory possible. This is the most complete record of families living in Baraboo that our town has had for quite a number of years.

In a book this size there are bound to be a few mistakes, and any families that were omitted because of moving etc., this we are sorry about. However, several families have been omitted on their request.

We find this book was needed by our merchants and hope it will be of great help in their business.
